PERSONAL PROTECTIVE EQUIPMENT

The global market for Personal Protective Equipment (PPE) is evolving rapidly in response to the ever-changing needs of the security sector. It is therefore essential for security forces to equip themselves with protection that will perform in the highest risk environments and offer excellent durability and resilience.

Public Order Training, USA

Scorpion PPE has been recognised as a market-leading, high quality brand, able to cope with many different situations.

The Scorpion Range of Personal Shields range is designed to offer a high degree of protection and an ease of deployment that greatly increases its effectiveness as well as 'behind-the-scenes' features such as ergonomic handles and a stacking capability for storage that ensure a perfect fit for the modern security department.

## TESTED AND APPROVED

DMS Protective Equipment Ltd has a Quality Management System certified to the very latest ISO9001:2015 standard. Scorpion Limb Protection has been tested and certified to both BS7971-4:2002 and the UK Home Office CAST standard 20/07. The Scorpion range of personal shields has been tested and certified to BS7971-3:2002.

## MADE IN THE UK

Based in Ludlow, in the heart of England, our factory produces PPE of the highest standards to be deployed by police and security forces around the world.

PERSONAL PROTECTIVE EQUIPMENT

## BLUNT TRAUMA PROTECTION

With a modular design and multiple sizes to fit male and female officers, we are certain that Scorpion PPE offers the best protection for high-risk operations.

Each piece is ergonomically designed with real-life movement in mind: adjustable straps ensure a better, more stable fit and flexible molded joint areas help maximise officers' mobility.

- Modular, ergonomic design
- High quality materials for maximum protection and longer product life
- Available in up to 5 sizes (XS - XL)
- Male and Female variations where necessary
- Cotton-covered straps for improved comfort
- Limb Guards certified to BS7971-4:2002 and Home Office CAST 20/07
- Manufacturing certified to ISO9001:2015

**SOLO SHIELD**

**LONG SHIELDS**

## **SCORPION SHIELDS**

---

Manufactured in the UK from high grade Polycarbonate, our personal shields offer high levels of protection against impacts, thrown objects and sharpened implements.

### **SCORPION SOLO SHIELDS**

Clear polycarbonate round shields with a handle system which allows the shield to be carried and deployed on the forearm leaving one hand free for other equipment. The forearm loop also allows the shield to be retained with both hands free for handcuffing etc. An optional integrated map holder is available and a medic/dog handler version with a neck strap.

### **SCORPION INTERLOCK SHIELDS**

A specially designed friction linkage system joins the shields together to form a continuous barrier, whilst still allowing easy, straight forward operation. Available in a range of lengths and handle configurations.

### **SCORPION LONG SHIELDS**

1650 x 600mm clear polycarbonate shield. Wraparound design protects the lower legs against side impacts and multiple shields can be linked to form a barrier.

## BATONS

---

In addition to our Scorpion Shields and limb protection, we also produce a range of traditional design batons.

Available in lengths from 530mm through to 900mm, the batons are made from 31mm diameter, tough black nylon 6 rod, with a durable rubber grip for added security in use.

Each baton has a rubber stop to securely locate into the belt holder.

All our batons come with an integrated 5mm lanyard for retention to securely fix the baton around the user's wrist.

### CUSTOM BATON SIZES

We are happy to offer custom sizes of baton subject to a minimum order quantity - please contact us with your requirements for details.

**STANDARD BATON SIZES  
(530, 610, 660 & 900MM)**
