

FORMING OUR FUTURE - TODAY

DMS Plastics Factory, UK

Established for over 30 years, DMS Plastics is here to meet all of your vacuum forming requirements: add our expertise to your project and see why so many of our customers return time after time.

Widely known for our range of Scorpion PPE, we also produce vacuum formed products and components for many industries.

MADE IN THE UK

Based in Ludlow, in the heart of England, our factory produces products and parts used all around the world.

FM: 56364
BS EN ISO 9001:2015

SPECIALIST SERVICES

We have a vast knowledge of raw materials and processes and can offer a range of forming processes including: Vacuum forming, pressure forming, twin sheet Moulding and drape forming.

We can form parts up to 3000mm x 2000mm

MACHINING

Trimming components with the highest degree of consistency and accuracy using our 5 axis CNC routers.

This is all done in-house and enables us to control the finish without compromising quality or timescales.

TOOLING

We have invested in a comprehensive tooling facility, with the ability to manufacture male and female format thermoforming tools.

The production of the associated 5 axis CNC programmes and fixtures. And any relevant assembly jigs.

MATERIALS

We mould on a wide range of materials including: ABS, Styrene, Polycarbonate, Aeroform, PPSU, Kydex T - 100, 55/55, 65/55, FST, Boltaron - 4330, 4800, 9815D, 9915FSTH, Lexan F6000, Europlex F3, F6, F7, Ultem, Acrylic

Please call if you have any specialist requirements not listed above.
